

THINK GLOBALLY, TALK LOCALLY

# Conversation Week is Coming

Once a year Conversation Week invites everyone, everywhere to sit down together to consider the most important questions in the world today. Nearly 1,500 people from 39 countries helped create this year's list of the Top Ten Questions — about the future, sustainability, politics, our children and more.

Conversation Cafes are a simple way for friends and strangers to shift from small talk to BIG talk. The agreements guarantee respect. The process encourages every voice to be heard. The result is a free ranging conversation about what matters most.
